

Molecules to Medicines: How Biopharma Delivers 5-6 November 2009

Location: William Stokes Postgraduate Centre, St James's Hospital, James Street, Dublin 8

LECTURE COURSE: Thu 5 November (1000-1700)

MOLECULES TO MEDICINES: CLINICAL PERSPECTIVE

1000 **Developing drugs – anticipating toxicity – and doing something about it**
Prof. Joe Keane (TCD)

DISCOVERY

Dr Jonny Finlay (Pfizer)

1040 **Introduction to the business of discovering biopharmaceuticals**

1125 *Coffee/Tea*

1145 **Current biopharmaceutical product candidates and a look into next generation technologies**

DEVELOPMENT

Dr Patrick Gammel (Pfizer)

1230 **Cell line development**

1315 *Lunch break (lunch will be provided)*

1400 **Process development**

MANUFACTURING

Dr Paul Dillon (Pfizer)

1445 **Introduction to the science and technology of biopharmaceutical manufacturing**

1530 *Coffee/Tea*

1550 **Focus on the application of molecular technologies in manufacturing environments**

1635 **Discussion & round up**
