

MMI Course

Techniques & Strategies in Molecular Medicine

An overview of research techniques and their applications, including:

DNA microarrays - DNA cloning strategies - RNA interference - transgenics and knockouts - proteomics - immunodetection - flow cytometry - high content analysis - stem cell technologies - systems biology

11-12 & 15-16 December 2008 (0930-1300 each day)
at Trinity College Dublin (Joly Theatre, Hamilton Building)

Visit the MMI website for further details and to apply online

www.molecularmedicineireland.ie/courses.htm

Online application period: 3 – 28 November 2008

**Molecular
Medicine
Ireland**

You can apply to attend this MMI Course if you are a postgraduate student, postdoctoral researcher, or member of staff in NUI Galway, RCSI, TCD, UCC, UCD and affiliated hospitals. Unless indicated otherwise, there is no charge for attendance. Those interested in attending who are based outside these institutions should contact education@molecularmedicineireland.ie before applying online.
