

Workshop in Biostatistics

The workshop will provide participants with an overview of fundamental biostatistical methods, an understanding of the key concept of variability and a practical working knowledge of the statistical techniques they are likely to encounter in applied medical research.

A variety of additional lectures and workshops covering Biomedical Research Skills will also be available to the attendees of the workshop in the afternoons.

6 - 10 July 2009

at the McKenna Computer Suite, Áras Uí Chathail,
NUI Galway

Visit the MMI website for further details and to apply online
